Professional Summary

Enthusiastic and detail-oriented **Full Stack Developer** with hands-on experience in **React.js**, **TypeScript**, **Tailwind CSS**, and **Java Spring Boot**. Skilled in building **responsive, scalable web applications** with **RESTful APIs** and **database integration**. Experienced in Agile development, CI/CD workflows, and collaborative problem-solving. Passionate about crafting clean, maintainable code and delivering high-performance digital solutions.

Technical Skills

Frontend Technologies:	ReactJS, jQuery, JavaScript (ES6), TypeScript, Framer Motion, Tailwind CSS, Bootstrap, HTML5, CSS3
Backend Technologies:	Java, Spring Boot, Hibernate, JDBC
Database Management:	MySQL, SQL
Version Control & CI/CD:	Git, GitHub
Development Tools:	Figma, VS Code, Eclipse

Academic Background

B.E. in Computer Science & Engineering

SKN Sinhgad Institute of Technology & Science, Lonavala, Pune

2021-2025

Experience

360customizer

April 2024 - Oct 2025

Associate Software Engineer - Intern

- Contributed to the development of multiple **React and TypeScript** based applications as part of the internal and client facing ecosystem.
- GiftHub (V2)**: Enhanced the company's e-commerce platform with features like **bulk enquiry, catalog generation, mockup creation, cart management and product details page**, improving usability and performance.
- Official Website**: Built a dynamic corporate website providing complete company information, serving as a digital company resume with automated data updates.
- Product Management Panel**: Developed an internal product management tool enabling teams to **handle e-commerce product data** efficiently from a unified dashboard.
- Order Management System (OMS)**: Worked in **Angular** to implement modules for **CSR activities, Blogs and Career openings** on the official site, streamlining internal workflow.
- BrandStore**: Designed an application to showcase **SaaS product features, pricing plans and capabilities** for potential customers.
- ResponseCollector**: Created a single page application for **collecting user responses and gift preferences**, improving customer engagement and reducing the time required to gather individual responses.
- Collaborated cross-functionally with **backend developers to integrate APIs** and **maintain performance consistency across projects**.
- Utilized Agile methodologies, participated in sprint planning and ensured code quality through reviews and testing.

Projects

Frontend Development (Freelance) - Hideaway Resort

Nov 2024 - Dec 2024

Tech Stack: ReactJS, React Router, Bootstrap

- Designed and implemented a **dynamic resort booking system** with real-time availability updates.
- Optimized routing using **React Router** for a seamless multi-page user experience.
- Reduced server response time by **35%** by implementing lazy loading and efficient state management.

Live Demo: [Hideaway Resort](#) — **GitHub:** [Repository](#)

Frontend Development (Freelance) - Neura – AI Web Template

Oct 2024

Tech Stack: HTML, CSS, Bootstrap, AOS, JavaScript

- Designed an **AI-focused landing page** showcasing machine learning applications.
- Implemented **interactive animations** using AOS to enhance UX and visual storytelling.
- Optimized asset loading and reduced page size by **20%**, improving performance.

Live Demo: [Neura AI](#) — **GitHub:** [Repository](#)

Soft Skills

- Strong **analytical and problem-solving** capabilities.
- Proficient in **Agile development** and collaborative coding.
- Adaptability in Agile Teams.
